FOR IMMEDIATE RELEASE April 17, 2006

BIOPHYSICAL SOCIETY ANNOUNCES 2006 STUDENT RESEARCH ACHIEVEMENT AWARD WINNERS

Bethesda, MD—The 8,000-member Biophysical Society is pleased to announce the 2006 Student Research Achievement Award Winners. Seventy-eight society student members participated in this competitive event held during the Society's 50th Annual Meeting in Salt Lake City, Utah, February 18-22, 2006. Judges from the Society's subgroups, and the education committee, selected thirteen winners. The winners were recognized at an awards ceremony on February 21st and received a monetary award. The winners are:

Biological Fluorescence
Rosemary Sanchez Turnigan
University of Massachusetts

Lai Hock Tay
Johns Hopkins University

Exocytosis/Endocytosis
Tzu-Ming Wang
UT Southwestern Medical Center

Xiaohui Chen
University of Missouri

Membrane Biophysics
Kathryn M. Mayer
Rice University

Marcel Gunther Friedrich
Max Planck Institute

Membrane Structure & Assembly
Xue Han
Johns Hopkins University

Molecular Biophysics
Gwangrog Lee
Duke University

Dukagjin M. Blakaj
Albert Einstein College of Medicine

Motility
Corey Michael Dambacher
San Diego State University

Micholas Guydosh
Stanford University

Permeation Transport
Hena R. Ramay
George Mason University

J. Craig Moffat, Jr.
Brigham Young University

The Biophysical Society, founded in 1956, is a professional, scientific society established to encourage development and dissemination of knowledge in biophysics. The Society promotes growth in this expanding field through its annual meeting, monthly journal, and committee and outreach activities. Its members are located throughout the U.S. and the world, where they teach and conduct research in colleges, universities, laboratories, government agencies, and industry.
