How to Navigate the BPS Annual Meeting

The Biophysical Society (BPS) Annual Meeting is the largest gathering of biophysicists in the world, bringing together **more than 7,000 researchers** from **over 45 countries**. With over 200 sessions and more than 4,500 poster presentations, it can be overwhelming! Use this Guide to help you get the most from your attendance at this world famous event.

SUBGROUPS

OPENING RECEPTION

Planning for the Meeting

Visit the Biophysical Society website (www.biophysics.org) and click on the Annual Meeting icon. There you will find additional information and online tools to enrich your meeting experience.

Explore the Desktop Planner

- Search by day, session type, author, and time
- Create your schedule
- Sync with your mobile device

Download the Mobile App

- Keep your itinerary at your fingertips
- Be notified of any schedule changes
- Email other attendees

Access the Complete Abstracts Issue

- Fully searchable and citeable through *Biophysical Journal*

Social Media

Follow us before, during, and after the Meeting on:

SYMPOSIA

Scientific Sessions

The BPS Annual Meeting is known for its many types of sessions, often taking place concurrently. Each type has its own distinct scope, format, and speaker makeup.

Symposia

- Broad topics featuring talks by leading researchers presenting new research
- Four speakers per two-hour session
- Two-to-three held concurrently

Platforms

- More focused topics selected from among submitted abstracts held concurrently with symposia
- Eight speakers per two-hour session, including younger researchers
- Approximately six held concurrently during each symposium session

Workshops

- Technique-oriented sessions
- Four-to-eight speakers per two-hour session
- Two-to-four held concurrently on Tuesday evenings

Posters

- Most interactive and well attended scientific sessions of the meeting
- Poster presentations held Sunday–Wednesday, with no competing scientific programming
- Late abstracts are scheduled each day during the same time as abstracts submitted by the regular deadline

Subgroup Programs

- Scientific sessions held on the Saturday of the Annual Meeting
- Feature speakers presenting the latest research in biophysics subfields

Biophysical Society Lecture

- One-hour presentation by a world-renowned biophysicist

Professional Development

The Annual Meeting includes daily sessions and resources for the professional development of biophysicists at all stages of their careers: **undergrads and grad students, early and mid-stage, and senior scientists**. These sessions are held **before, after, and in-between the scientific sessions**.

POSTERS

Career Center

Open all day, includes job and resume postings, interview scheduling, CV reviews, and job-related workshops

Breakfasts

For students and postdocs to network and learn about available resources

Panel Discussions

Expert presentations on career options, guidance on career transitions, funding resources, science policy

Workshops

On publishing, teaching and science education, social media, grant writing, communication, and outreach

Exhibits

Over 200 displays of new equipment, publications, and products

Exhibitor Presentations

Hands-on demonstrations conducted by exhibiting companies of scientific products and their use
