

**Intrinsically Disordered Proteins Subgroup 2017 Symposium**  
**Saturday, February 11, 2017**  
**New Orleans, Louisiana**  
**1:00 PM -7:00 PM**  
**Room 206/207**

*Garegin Papoian, University of Maryland, Subgroup Chair*

11:00 PM **Business Meeting**

1:00 PM **Opening Remarks and Introduction**

Co-chairs: *Joerg Gsponer, University of British Columbia, Canada* and *Madan Babu, University of Cambridge, UK*

1:05 PM **Keynote Speaker**

*Dynamic Assembly and Regulation of Macromolecular Signaling Complexes*  
Susan Taylor, University of California, San Diego

1:50 PM

*Disordered CDK substrates act as multi-input signal processors to control the key decision points in the cell cycle*

Mart Loog, University of Tartu

2:20 PM

*Exploration of protein regions involved in map kinase mediated signaling*

Attila Reményi, Hungarian Academy of Sciences

2:50 PM **Postdoc Talk**

3:10 PM

*Choreography by Structural Disorder in Membrane Proteins*

Birthe Brandt Kragelund, University of Copenhagen

3:40 PM **Coffee Break**

4:00 PM

*Intrinsic Disorder in the Highly-Ordered Circadian Clock*

Jennifer Hurley, Rensselaer Polytechnical Institute

4:30 PM

*Entropic clocks in the service of electrical signaling*

Ofer Yifrach, Ben Gurion University

5:00 PM **Postdoc Talk**

5:20 PM

*Title not yet available*

Andy Baldwin, Oxford University

5:50 PM **Keynote Speaker**

*Twenty Years of IDPs; What Have We Learned*

Richard Kriwacki, St. Jude Children's Research Hospital

6:35 PM **Closing Remarks**
