

EXHIBITOR PRESENTATIONS

All exhibitor presentations take place in room 123, just outside the exhibit hall at Moscone Center.

SUNDAY, FEBRUARY 21

1:00 - 2:30 p.m.

Asylum Research

The Latest Advances in High Resolution Imaging, Low Noise Force Measurements and Optical Integration with the AFM

3:00-4:30 p.m.

ICx Technologies

Biomolecular Interaction Analysis using SensiQ Pioneer

5:00 - 6:30 p.m.

TILL Photonics

more: // live cells; 3-D; FRET; FRAP; TIRF

MONDAY, FEBRUARY 22

11:00 a.m. - 12:30 p.m.

Nanonics Imaging

Multi Probe AFM BioImaging: The Next Evolution in SPM

1:00 - 2:30 pm

Collectricon

The Dynaflo[®] HT System-Unlimited High-Throughput Ion Channel Screening

3:00 - 4:30 pm

HORIBA Scientific

Fluorescence Lifetime Techniques, a Question of Experimental Design - Frequency or Time Domain?

5:00 - 6:30 p.m.

Veeco Instruments

New Advances That Will Change the Way You Use and Think About AFM

7:00 - 8:30 p.m.

Molecular Devices

Making the Most out of pCLAMP[®] Software

TUESDAY, FEBRUARY 23

9:00 a.m. - 10:30 a.m.

Carbon Design Innovations

Unraveling CNTs for the Perfect AFM Probe

11:00 a.m. - 12:30 p.m.

Agilent Technologies

Next Generation Instruments to HELP Biophysical Researchers See the Details
