

Biophysical Society

2022-2025 Strategic Plan

MISSION:

To lead an innovative global community working at the interface of the physical and life sciences, across all levels of complexity

VISION:

To harness the full potential of biophysics to seek knowledge, improve the human condition, and preserve the planet for future generations

CORE VALUES:

Scientific excellence ■ Integrity and transparency
Diversity, equity, and inclusion ■ Community building

I. FOSTER A DIVERSE AND INCLUSIVE GLOBAL COMMUNITY

The Biophysical Society will be recognized as the welcoming global organization for every biophysicist.

- A. Increase Participation and Engagement
- B. Embrace Change Through Diversity of Thought and Leadership
- C. Advance Racial and Ethnic Diversity
- D. Promote Respectful Behavior and Treatment of All

II. ENHANCE THE SHARING OF KNOWLEDGE

The Biophysical Society will provide opportunities to share information, learn, collaborate, and highlight discoveries.

- A. Promote Discovery
- B. Research & Develop Strategy around Long Term and Sustainable Success of Journals
- C. Create a Digital Content Strategy
- D. Enhance Training and Education
- E. Foster Collaboration Across All Sectors

III. INVEST IN THE FUTURE OF BIOPHYSICS

The Biophysical Society will support biophysics and biophysicists at every level.

- A. Develop the Next Generation of Biophysicists
- B. Support Biophysicists at Every Career Stage
- C. Foster Emerging Fields
- D. Help Enable Solutions to Global Problems

IV. ADVOCATE FOR BIOPHYSICS

The Biophysical Society will promote the field, interests, and significance of biophysics.

- A. Define and Promote the Brand
- B. Support Legislative and Regulatory Initiatives to Advance Scientific Research
- C. Engage Broader Community to Appreciate and Convey the Value of Biophysics
- D. Highlight Contributions of Biophysics
