

Membrane Structure & Assembly Subgroup 2017 Symposium
Saturday, February 11, 2017
New Orleans, Louisiana
1:00 PM- 6:00 PM
Room R06/07

Rumiana Dimova, Max Planck Institute of Colloids and Interfaces, Potsdam, Germany,
Subgroup Chair

1:00 PM

Specificity of Curvature Effectors In Vivo

Harvey McMahon, MRC Laboratory of Molecular Biology

1:35PM

Membrane curvature, a non-stochastic regulator of protein localization, structure and function

Dimitrios Stamou, University of Copenhagen

2:10 PM

Phases and Fluctuations in Biological Membranes

Sarah Veatch, University of Michigan

2:45 PM **Break**

3:10 PM

The role of cholesterol in virus entry

Lukas Tamm, University of Virginia

3:45 PM

Self-organization and dynamics of the actin cortex-membrane interface

Gijsje Koenderink, FOM Institute AMOLF

4:20 PM **Thompson Award Speaker**

Increasing complexity in computer simulations of membranes

Peter Tieleman, University of Calgary

5:00 PM **Subgroup Business Meeting**

The MSAS Subgroup is grateful for support from the following companies:
